

Sizechart COMFORTPACK²

A choice of harness significantly affects the choice of rucksack size. In the following table we show you which rucksack sizes we recommend for an ADVANCE harness - depending on your own preferences. The pilot can decide whether he would rather have a compact rucksack which is very comfortable to carry, or a bigger rucksack with a lot of space for easy packing.

-  Compact rucksack which is very comfortable to carry
-  Bigger rucksack with a lot of space for easy packing
